

# Mohd Rizwan

Delhi NCR, India | mr659612@gmail.com | +91-9616675591 | github.com/RIZWAN1428

Software Engineer with 2+ **years of experience** building enterprise-grade applications using **Java, Spring Boot, Spring MVC, RESTful APIs, MySQL and PostgreSQL**. Track record of shipping scalable backend systems, microservices and full-stack features with **Angular**, grounded in strong **OOP, data structures & algorithms and Agile/Scrum**. Additional applied AI/ML exposure spanning **Python, computer vision, Neo4j and LLM-integrated workflows**.

## Technical Skills

---

- **Languages:** Java, Python, JavaScript, TypeScript, SQL, HTML5, CSS3
- **Backend & APIs:** Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Django, REST API Design, Microservices, Celery
- **Databases:** MySQL, PostgreSQL, SQL (joins, indexing, query optimization), Neo4j (graph modeling), Redis (caching, in-memory data)
- **Frontend:** Angular, RxJS, JavaScript/TypeScript frameworks, responsive UI development
- **Software Engineering:** OOP/OOD, Design Patterns, Data Structures & Algorithms, Clean Architecture, Unit & Integration Testing (JUnit 5), Code Reviews, Debugging, Agile/Scrum, SDLC
- **Cloud, DevOps & Tools:** AWS, Docker, Git, GitHub, Maven, CI/CD, Postman
- **Applied AI/ML (Working Knowledge):** Computer Vision (YOLO, R-CNN), LLM Integration, RAG Pipelines

## Experience

---

**Software Engineer**, MatheSis Labs – Noida, UP Jan 2026 – Present

- Design, develop and maintain production healthcare applications using **Angular, JavaScript, HTML/CSS and Python**, serving **1,000+ daily active users** with a focus on reliability and performance.
- Co-developed a **Django, PostgreSQL and Redis**-based data platform with Python **ETL pipelines** and **Celery** asynchronous task processing, implementing secure data ingestion, validation and publishing workflows.
- Architected a **Neo4j** graph-based rule engine, containerized with **Docker**, and exposed through maintainable **REST APIs**; trained and deployed **YOLO/R-CNN computer-vision models** into production workflows.
- Collaborate cross-functionally with engineers and stakeholders to gather requirements, deliver features and troubleshoot customer-facing issues.

**Developer Intern**, MatheSis Labs – Noida, UP Jul 2025 – Dec 2025

- Developed backend features using **Java, Spring MVC and MySQL** across **5+ product modules**, applying object-oriented design principles and building reusable, maintainable components.
- Built, tested and integrated **RESTful APIs**; authored optimized SQL queries and supported relational database design and data operations.
- Worked within an **Agile/SDLC** environment, participating in senior engineer code reviews, debugging sessions and iterative, sprint-based delivery.

**Analyst**, HCLTech – Noida, UP Nov 2022 – Mar 2024

- Supported large-scale enterprise applications with **96% SLA compliance**, diagnosing application logs, database issues and service failures to ensure system reliability.
- Partnered with development and support teams to root-cause and resolve recurring production issues, reducing repeat incidents by **25%**.

## Projects

---

### SwasthyaQueue – Hospital Queue Management System

- Engineered a full-stack hospital queue management system using **Java 17, Spring Boot, PostgreSQL, Redis and Angular**, applying **Clean Architecture** (Entity–Repository–Service–Controller layering) with a normalized schema across patients, departments and tokens.
- Designed **12+ RESTful APIs** and a custom **Triage Priority Engine** (severity, arrival time, wait-time delay) with a **Pre-Checkup Router** sequencing patients across **5+ departments**; secured with **Spring Security** and tested with **JUnit 5**.

## Education

---

**Maulana Azad National Urdu University**, B.Tech in Computer Science Jul 2018 – Jun 2022

- CGPA: **9.13 / 10.0**

## Achievements & Leadership

---

- Ranked in the **top 3** throughout school and college for academic performance; **Gold Medal** in Mathematics Competition; **1st Rank**, district-level Speech Competition.
- **Co-founder, College Coding Club** – organized coding competitions and peer-mentorship sessions; winner of inter-college cricket and carrom tournaments.
